

## **IMPORTANT INFORMATION REGARDING ELECTRIC SCOOTERS AT NATIONAL CONVENTION**

In the past, DAV has been able to provide access to electric scooters for use by DAV and DAVA members during the National Convention. Last year, the provider of this service began charging a nominal fee for the use of scooters. For a variety of reasons they are unable to continue this service.

We have been working over the past few months to find a replacement supplier; however our efforts thus far, have not been successful.

We are therefore unable to provide this service at this time to those attending the National Convention in Denver, Colorado. Should the situation change and we can provide the service we will inform everyone as soon as possible.

We have listed a few of the suppliers in the Denver area who may be able to provide this service to our members on an individual basis. Rates vary according to the supplier, type and brand of scooter. In addition, you should be specific as to the dates you request the use of the rental scooter.

DAV is unable to assume any responsibility for equipment rental, its availability, costs, service, or quality or function of the equipment.
