**SUBJECT:** The DAV Conference Center for Posttraumatic Growth at Boulder Crest Texas

---

I am pleased to announce that Boulder Crest, an organization committed to ensuring veterans and their families can live full and meaningful lives in the aftermath of trauma, has recognized DAV's support for their organization by unveiling the DAV Conference Center for Posttraumatic Growth at Boulder Crest Texas.

This building sits on the campus of their just-opened location in Italy, Texas, joining their facilities in Arizona and Virginia where veterans can come for healing and restoration from the invisible wounds that can result from military service.

Trauma is a prevalent issue, and DAV is committed to finding and supporting a wide range of programs that have proven track records of helping address it. Boulder Crest's Warrior PATHH is one that has helped many veterans. This conference center and the \$1 million we gave to Boulder Crest to support its Posttraumatic Growth programming will help ensure their work continues for years to come and touches the lives of thousands more.

We've supported Boulder Crest both with volunteers and resources for many years. They do important, lifesaving work, and we're proud to stand alongside them. I encourage you to learn more about Boulder Crest and the incredible work they do by visiting [bouldercrest.org](http://bouldercrest.org).

Barry A. Jesinoski  
National Adjutant
