Process Strategy

Overview

Issued interim guidance

- Ensures proper control to hold impacted contentions / claims for processing
- Preliminary guidance provided to processors on Aug 10, interim guidance issued Sept 9

Issued sub-regulatory policy guidance

- The majority of the sub-regulatory policy guidance is substantive
- Sub-regulatory policy guidance posted in the Federal Register on Dec 22

Formalize through rulemaking

- All sections requiring policy guidance will need to be formalized through the rulemaking process
- VA will either amend existing rulemaking packages, issue proposed rules (with comment period followed by a final rule), or issue final rules (no comment period)

Key Points

- Claims processing began following completion of training, delivery of procedural guidance, and publishing of substantive sub-regulatory guidance.
- Early claims processing for terminally ill Veterans began on Dec 12, 2022.
- Full claims processing began on Jan 1, 2023.
- VA continues to work on formalizing the PACT Act through rulemaking packages
- Claims processors have extensive resources to assist in processing claims related to PACT Act:
  - Standard Operating Procedure
  - PACT Act Intranet page
  - Job Aids
  - FAQs
  - PACT Act Inquiry Tool
Since August 10, 2022:

- 1,093,165 total claims filed (Veterans and Survivors)

The PACT Act is a generation-defining achievement that affects millions of Veterans, caregivers, survivors, and family members. With over 20 new presumptive conditions and new locations for toxic exposure to Agent Orange and radiation, the PACT Act impacts how we train new personnel, deploy new technology, and determine new presumptive conditions down the line.

Began processing claims January 1, 2023.
The Act expands and extends eligibility for VA health care for Veterans with toxic exposures and Veterans of the Vietnam era, Gulf War era, and Post-9/11 era.

VA will improve the decision-making process for determining what medical conditions will be considered for presumptive status.

Every enrolled Veteran will receive an initial toxic exposure screening and a follow-up screening every five years. Veterans who are not enrolled, but who are eligible to enroll, will have an opportunity to enroll and receive the screening.

VA health care staff and claims processors will receive toxic exposure-related education and training.

The Act requires research studies on the mortality of Veterans who served in Southwest Asia during the Gulf War; Post-9/11 Veteran health trends; and Veteran cancer rates.

The Act will help VA build a stronger, more skilled workforce to meet the growing demand for benefits and services.

The Act authorizes 31 new facilities across the country, providing greater access to VA health care.
Conditions Presumed to be Service-Connected

As of August 10, 2022, a long list of new conditions are presumed to be service-connected due to various in-service toxic exposures. APPLY NOW at VA.gov/PACT to expedite your claim and benefits.

Toxic Exposure Screening for Veterans

**WHO:** All Veterans enrolled in VA health care

**WHAT:** A quick (5-10 minute) series of questions to identify and document any potential exposures to toxins during military service

**WHEN:** At least one every 5 years

**WHERE:** VA medical centers and clinics

**WHY:** Supports Veteran long-term health plans and informed, whole-health care

**HOW:** Veterans can ask about the screening at their next VA appointment
Veterans can file a claim for the new presumptive conditions:

- **New Claim**—Veteran has never filed for the presumptive condition
- **Supplemental Claim**—the presumptive condition was previously denied but is now considered to be presumptive

- If VA denied one of the new presumptive conditions in the past but the Veteran may now be eligible for benefits, VA will try to contact them. There is no need to wait to file a Supplemental Claim.

- VA is prioritizing the claims of Veterans with cancer to make sure they get timely access to the care and benefits they need.

- **Pending Claims**: If a Veteran’s condition was added to the list of presumptive conditions* after the claim was filed, VA will consider it on a presumptive basis.

* Presumptive conditions do not require proof that the military service caused the condition. Veterans only need to meet the service requirements and have a current diagnosis of the presumptive condition. Veterans should submit any supporting documentation to assist with their claim.
What about additional benefits and care for other Veterans and their survivors?

Under the PACT Act, survivors may be eligible for VA benefits, including Dependency and Indemnity Compensation and Burial benefits.

- Dependency and Indemnity Compensation
- Burial Benefits

VBA and partners work together to ensure Veterans get information quickly and know how to **identify and report suspected scams**.

- Veterans and their families need to verify any entity they’re considering engaging for PACT Act or other claims assistance by checking the **Office of General Counsel accreditation tool** available on the VA website.

- The fraud division in the Office of Financial Management coordinates with OIG to actively **investigate suspicious activity**.

- To report a suspected fraudulent operator, call the Office of Inspector General’s hotline, **1-800-488-8244**.

- VBA has kept the C&P fraud rate under **1%**.
